Do you have any specific suggestions for improvements to the training school content / material / format?	Any other general comments you would like to make:
no	no
No	Thank you for the great opportunity
no specific suggestions	thank you for this excellent TS
no don't let trainers surpass the time they have, it's something we should learn to respect no	no thank you! it was very well organized and interesting Thank you
No More practical work, field trips	No It was very valuable for my future researches.
No, everything was fine !!	Thank you for everything!
More practice	more practice
Not any	Not any
no The schedule is seems unorganized as there are lot of changing of who are going to give the lecture, but its also because some of the lecture give late notifications of their attendance, as some of teacher cant jooin the training school its also a bit difficult to find the other teacher with the same capability to replace the teacher that cant join the TS due to shorter time.	no hopefully can be more well organized
no	no
A little better organization	No
A little better organization	No
no	no
the time is very short	add experimental sessions and visits to laboratories
